Election/Restrictions

Allowable Subject Matter

1. Claims 30-44 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As to claim 30, Baumann (US 5,606,839) discloses the claimed joining connection with the exception of wherein the two joined parts comprise a first part of a hydraulic or pneumatic operating device having an outer wall section and a second part of a hydraulic or pneumatic operating device having an inner wall section, which parts can be joined together and connected to each other with mutually overlapping wall sections.

There is no teaching or suggestion, absent the applicant's own disclosure, for one having ordinary skill in the art at the time the invention was made to modify the connection disclosed by Baumann to have the above mentioned elemental features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to the applicant's disclosure. The following patent shows the state of the art with respect to hydraulic or pneumatic operating devices:

Art Unit: 3679

Dowty Mining Equipment (GB 2 078 858) is cited for pertaining to devices comprising a clearance fit between first and second parts.
